

COOL-TEX[®]

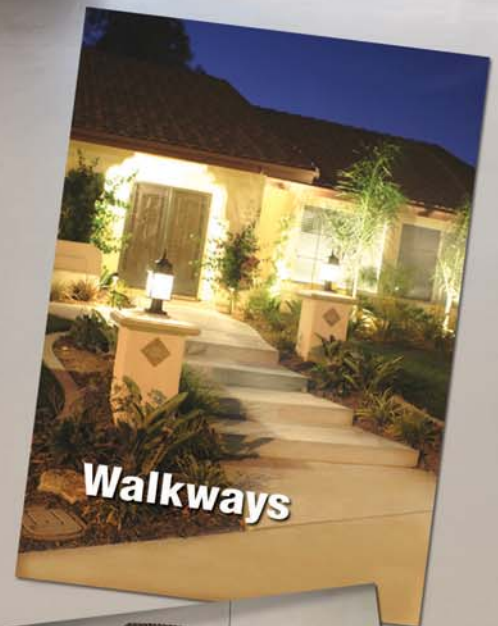

Heat Reflective, Slip-Resistant Floor & Deck Coating System

Garage Floors • Patios
Walkways • Balconies
Ramps • Recreational Areas

Features & Benefits

- Advanced heat-reflective technology gives a cooler walking surface, even with darker colors.
- Withstands spills from gasoline, brake fluid, oil and other automotive chemicals.
- Long lasting durability, resistance to stains and scratches.
- Slip resistant finish, even when wet.
- Mildew, fungus, and algae resistance means less maintenance.
- Fade resistant, available in Roll-On, Splatter or Lace finishes.
- High-performance, near-zero VOC, water-based epoxy coating.
- Only for application to bare concrete.
- Available in 3.6 gallon & 1 gallon kits.

ONLY FROM

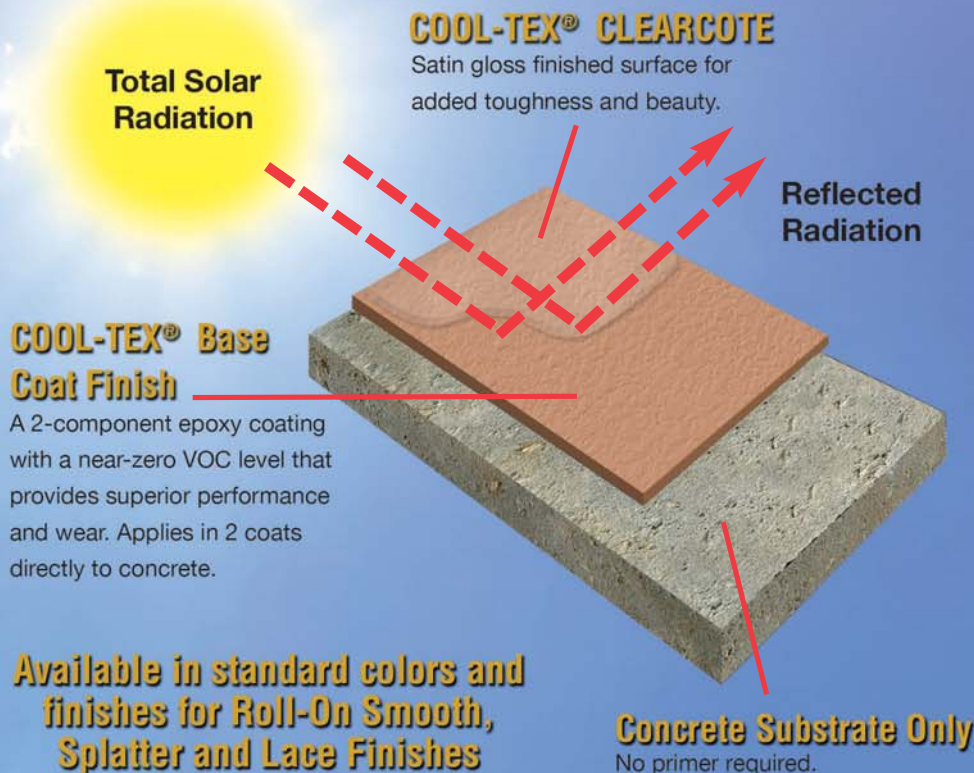

TEX-COTE[®]

TEXTURED COATINGS OF AMERICA, INC.

Today's Requirements in floor coatings have become complex

In addition to the expected aesthetic qualities, issues such as safety, ADA requirements, OSHA, environmental concerns and life cycle are evaluated. Owners, managers and design professionals are challenged to select products that meet all these requirements. COOL-TEX® features a revolutionary technology that reflects the sun's heat back into the atmosphere making decks cooler and fade-resistant even in dark colors, meeting all requirements set forth today. The unique heat-reflective COOL-TEX® System creates one of the most durable, slip-resistant and environmentally-friendly surfaces available.

COOL-TEX® can be applied in Multiple Textures & Finishes
