EIFS PRIMER

DESCRIPTION
EIFS PRIMER is a low VOC 100% acrylic primer. The primer offers excellent adhesion to chalky and previously painted surfaces. Due to its 100% acrylic composition, the primer offers good exterior durability and excellent Alkali and Efflorescence Resistance. EIFS PRIMER is low in odor, non-flammable, and is safe and easy to use.

FEATURES
- Novel low VOC 100% acrylic
- Breathable
- Excellent adhesion over previously painted surfaces
- Excellent Alkali and Efflorescence Resistance

BENEFITS
- Improves inter-coat adhesion.
- Use on a variety of substrates.

RECOMMENDED OVER
EIFS, Stucco brown and scratch coats and other manufacturer approved surfaces.

APPLICATION
Application Equipment
Apply with brush, roller or conventional airless to substrate at recommended coverage rate.

Surface Preparation/General
All surfaces must be sound, clean and dry prior to priming. Surface contaminants must be removed from surface by sand or water blasting, electric sanding, wire brush or scraping. Such surface contaminants as dust, dirt, mildew, form oils, loose substrates, etc., must be removed. All loose, flaking or oxidized paint shall be removed from surface by sand blasting, water blasting, wire brushing or scraping. Large cracks, holes and voids must be filled in with cement patching compound which utilizes a bonding agent such as TEX•BOND. Texture of patch shall match existing surface. Cracks less than 1/32” shall be filled with FLEX-PATCH® compound. Cracks greater than 1/32” should be patched with cementitious patching compound. Wall joints must be sealed with Polyurethane type sealant meeting Federal Specifications TT-S-230 II.

Application Rate
250-300 square feet per gallon, depending upon surface porosity and type of finish. Do not thin.

Drying / Curing / Exposure Times:
To Touch: One (1) to two (2) hours.
Recoating: Four (4) hours to overnight; depending on temperature.
Exposure: Four (4) weeks maximum.
Note: If exposed to ultraviolet for more than 4 weeks, re-prime the surface.

Clean Up:
Use water for wet material and Methyl Ethyl Ketone (M.E.K.) for dry.

BEST PERFORMANCE
1. Do not apply over frozen, damp surfaces, with imminent rain or fog, or if temperature is dropping below 40°F. Avoid freezing product.
2. Do not expose to ultraviolet rays more than four (4) weeks before top-coating.
3. Roof and parapet top caps shall be installed and sealed against water penetration prior to priming.
4. Air temperature for application shall be 45°F and rising, not to exceed 100°F.
5. Retaining walls, planter boxes, below grade surfaces shall be waterproofed with an asphalt type sealer.

ORDER INFORMATION
Packaging:
Available in one (1) and (5) gallon pails.

Coverage Rates:
250-300 square feet per gallon, depending upon surface porosity and type of finish. Do not thin.

Shelf Life:
- Twelve month shelf life under proper conditions.
- Containers must be stored upright and airtight in a dry space.
- Maintain air temperature of 45°F — 100°F. (7°C—38°C). AVOID FREEZING.

Note: TCA products are not for use below grade.

**SAFETY**

**Warning:**
Use with adequate ventilation. Do not breathe spray mist or dust. Avoid contact with eyes, skin, or clothing. Wash thoroughly after handling. Read MSDS sheet before using material. Keep out of reach of children.

**First Aid:**
If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical attention immediately. In case of eye contact, flush immediately with large quantities of water for at least 15 minutes and get medical attention. For skin, wash thoroughly with soap and water. If swallowed, get medical attention immediately. Do not induce vomiting.

**WARRANTY**

Upon completion of application of coating in accordance with the manufacturer’s recommendations, Textured Coatings of America, Inc. will extend its limited commercial warranty for product replacement as a result of defect in the material. The manufacturer must be notified prior to the application of the coating and the application must be in compliance with manufacturer’s recommendations for installation. Textured Coatings of America, Inc. shall have no obligation to contribute or to otherwise participate in labor or cost associated with effecting repairs. Specimen copy of material warranty is available upon request.
