

The 10:1 President is a time-tested, air-operated texture sprayer that pumps directly from your material drum.

High-Output Piston Pump

- Submerged foot valve is placed low to the ground to ensure the pump is preloaded with material
- Available in both carbon steel and stainless steel
- High-output pump produces texture delivery rates to 3.0 gpm at 1000 psi for time-saving production ratios

Heavy-Duty Graco Air Motor

- Time-tested air motor delivers years of reliable, dependable operation
- Simple, maintenance-free design

Even-Flo® Valve

- Provides smooth, even material flow for the most consistent finish quality
 - Includes air regulators and pressure gauges for easy setup and operation

Relax-A-Valve (Carbon-Steel Model Only)

- Ensures a soft start with easy trigger pull
- Eliminates the material blast that can impact finish quality

Convenient Drum-Mount Set-Up

- Mounts directly to your material container, saving space in your truck or on the job
- Carbon-steel models can be used in open or closed head drums

10:1 President

10: 1 Carbon Steel Complete Model Shown

DESCRIPTION	PART NUMBER	MAX GPM (LPM)	MAX PSI (BAR)	MAX HOSE
