These sample reproductions are an approximation of color and do not denote the actual texture or sheen and vary according to specific product and batch. Colors also vary depending on lighting conditions, substrate, exposure, and on-line viewing. On-line viewing is for reference purposes and is not intended for final color choice. Application of CLEAR-SEAL™ will slightly deepen color. CLEAR-SEAL™ applied beyond the recommended coverage rate will continue to deepen the color. When color matching is critical, an applied sample is required and all materials should be from the same batch. Special colors are subject to confirmation by Tex-Cote LLC.
